The Art of Love

Alma Mahler's Life and Music

The Art of Love tells the story of Alma's early life: her study with Alexander Zemlinsky, her marriage to Gustav Mahler and her tempestuous affair with the painter Oskar Kokoschka.

Songs by both Mahlers and Wagner's *Träume* have been arranged specially for Counterpoise by David Matthews. The sequence also quotes the famous Adagietto from Mahler's Fifth Symphony and the Liebestod from *Tristan und Isolde*. The mezzo-soprano Rozanna Madylyus adopts the persona of Alma and tells the story of her passionate involvement with Zemlinsky, Mahler and Kokoschka.

We are delighted to be able to welcome artists of the calibre of Rozanna Madylyus and Counterpoise to Hampstead Garden Suburb for this special performance. Later in the summer, they will be performing this programme at the music festivals of Cheltenham, Buxton and Deal.
